(k) Water Bill Payments by Telephone

The Utility may offer a service allowing its customers to pay their water bills by telephone. If the Utility offers this service, the customer charge for each completed water bill payment transaction is \$1.11 plus the current credit/debit card fees in the Utility's tariff. The telephone bill payment system shall verbally notify the customer of applicable charges and, after providing the notification, allow the customer the opportunity to terminate the call without incurring the charges.

Telephone Charge per Transaction	\$ 1.11
----------------------------------	---------

(l) Voluntary Disconnection

A customer seeking disconnection of his or her water service must deliver a written request for disconnection to the Utility at its business office. The request for disconnection must contain the following information: customer's name or names; the service address; the customer's forwarding address; the customer's service account number; the meter reading from the last water service bill; the date disconnection is requested; and must be signed by the customer. The request for disconnection must be delivered to the Utility at least three (3) business days prior to the requested disconnection date. The Utility shall disconnect the service within three (3) working days after the requested disconnection date. The customer will be responsible for all billing for service until the date of disconnection or three (3) working days after the requested disconnection date, which ever first occurs.

(m) Fees Applicable to Reconnection Taking Place Within One (1) Year

If a customer has requested his or her service to be discontinued, or has had service disconnected for non-payment, and thereafter seeks reconnection within twelve (12) months of the date of disconnection, the customer must pay bills due and payable, all fees and charges incurred as the result of disconnection/reconnection, plus the minimum monthly rate times the number of months the service has been discontinued.

(n) Pressure Reducing Valve ("PRV")

If the Utility provides water to a customer at a pressure exceeding ninety (90) PSI, measured at, or near, the meter, the customer shall purchase, install, and maintain a properly functioning Pressure Reducing Valve ("PRV"). The PRV shall be installed in the customer's service line in a manner acceptable to the Utility. The PRV shall operate to insure the pressure of the water entering the customer's premises does not exceed the recommended pressure rating of the customer's plumbing fixtures and equipment.

(o) Ownership and Use of Utility Property

The Utility may, from time to time, purchase, install, and deploy certain property, including but not limited to, Water Meters and Service Stops (shut-off valves), for providing water service to its customers. The Utility shall own and have the exclusive right to control all of its utility property. Except, however, a customer may operate the Service Stop to turn off its water service in the event of an emergency, or for repairs to the customer's facilities with the Utility's permission. No customer or person not authorized by the Utility shall operate or access the Utility's property to initiate service or restore service after the service has been disconnected.
